The addition to Conwell Pavilion, at the corner of Cambridge and Washington streets, is scheduled to open in early 2014. It will expand the hospital's intensive care space and will feature 23 private rooms.

The newly renovated Hematology Oncology Outpatient Center, located in the Cardinal Cushing Pavilion, was developed in affiliation with Dana-Farber Community Cancer Care.

The 11,800-square-foot space underwent \$7.4 million in renovations and refurbishment.

The medical center is making other infrastructure upgrades elsewhere on its Brighton campus.

Patient rooms are being upgraded on medical and surgical inpatient floors in Seton 7 East and 6 West and Medeiros 6 and 7. Those upgrades include: renovating nursing stations, hallways and patient room walls, ceilings and showers and installing new window treatments, light fixtures, flat screen TVs and energy efficient windows.

...which is a continuation of our commitment to providing the highest quality of care to our patients and the community. The new Hematology Oncology Outpatient Center is a testament to our commitment to providing the highest quality of care to our patients and the community. The new Hematology Oncology Outpatient Center is a testament to our commitment to providing the highest quality of care to our patients and the community.

“Advancements in medical care, and our ongoing focus on ensuring a calm and restful stay for all of our patients, are driving forces behind continual investments in our campus,” he continued. “Patients are already positively responding to the new Hematology Oncology Outpatient Center and the new ICUs will give our clinicians a physical place that matches the advanced life-saving care we already provide.”
