A new version of the Boeing 737 jetliner has come under scrutiny after two crashes in five months that killed everyone on board each time.

The [latest incident](#) killed 157 people when a 737 Max 8 crashed on Sunday six minutes after taking off in clear weather from Ethiopia's capital en route to Nairobi. The cause had not been determined by Monday morning.

In late October, a 737 Max 8 also crashed in Indonesian seas, killing 189 people. A preliminary report on that disaster indicated that pilots struggled to maintain control following an equipment malfunction.

The carrier involved in Sunday's crash, Ethiopian Airlines, decided Monday to [ground](#) all its 737 Max 8 planes until further notice.

Caribbean carrier Cayman Airways said it was temporarily grounding the two it operates. China ordered its carriers to ground all 96 of that model. Indonesia's air safety regulator said it's discussing the possibility of grounding the jets, while South Korea began special inspections.

Still, safety experts cautioned against drawing too many comparisons between the two crashes until more is known.

There are four variants of the 737 Max model, which vary in size, from smallest to largest: the 737 Max 7, the 737 Max 8, the 737 Max 9, and the 737 Max 10.

The Max 8 was the first to go into service in 2017 and that version accounts for the bulk of 737 Max models in use. The Max 9 went into service in March 2018. The Max 7 is due to debut this year, while Max 10 is due to launch in 2020.

At least a couple of 737 Max 8 jets were flying into and out of Logan International Airport in Boston on Monday, according to the Flightaware website.

American Airlines Flight 9672 landed in Boston at 12:21 a.m. Monday, arriving from Miami. American Airlines Flight 1201 left Boston at 11:16 a.m. Monday en route to Miami.

A 737 Max 9 jet left Houston Monday morning and was scheduled to touch down in Boston at about 12:30 p.m.

The following table shows how many Boeing 737 Max-model jets were owned, and have been ordered, by each airline as of January. A breakdown by version was not immediately available Monday.

Here are the airlines that own Boeing 737 Max jets

Figures are as of Jan. 2019.

Airline	Number of 737 Max jets	Unfulfilled orders for 737 Max jets	When airline first received 737 Max
Southwest Airlines	31	249	8/26/17
GECAS	22	154	1/30/18
American Airlines	22	78	9/28/17
Air Canada	20	41	10/31/17
Norwegian Air Shuttle	18	92	6/29/17
China Southern Airlines	16	34	11/27/17
flydubai	14	237	7/31/17
Lion Air	14	187	5/16/17
Air Lease Corporation	14	154	12/1/17
Air China	14	-	11/2/17
China Eastern Airlines	13	-	11/27/17
United Airlines	12	124	4/23/18
WestJet Airlines	12	43	9/28/17

Airline	Number of 737 Max jets	Unfulfilled orders for 737 Max jets	When airline first received 737 Max
TUI Travel PLC	11	61	1/29/18
Xiamen Airlines	9	-	5/22/18
SpiceJet	7	129	9/27/18
Turkish Airlines	7	68	8/17/18
Hainan Airlines Holding	7	-	11/17/17
GOL Linhas Aereas	6	129	6/28/18
Shandong Airlines	6	-	6/1/18
Aviation Capital Group	5	98	1/24/18
AerCap	5	95	9/27/18
BOC Aviation Limited	5	82	5/16/18
Copa Airlines	5	56	8/30/18
